

WRITING CONTROL STRUCTURES IN PLSQL

No.	Cat	Hands-on Assignment	Topics Covered	Status
1	M	Write a program that will prompt for a EMPNO,ENAME,SAL. If EMPNO does not exists in EMP table then INSERT the EMPNO,ENAME,SAL into the EMP table else UPDATE ENAME,SAL for that EMPNO.	Control Structures	☐
2	S	Write a program that will prompt for number and display whether the number is ODD or EVEN number.	Control Structures	☐
3	M	Write program that prompts for EMPNO and update his salary based on the below specification: If the employee belongs to DEPTNO 10 then update his salary by 10%. If the employee belongs to DEPTNO 20 then update his salary by 15%. If the employee belongs to other DEPTNO then update his salary with SALARY+COMM.	Control Structures	☐
4	S	In sql Prompt create a table MYTABLE1 with RESULT as a column of number datatype. Write a program that will insert record in the mytable from 1,2,3... to 10 values. Do not insert record 6 and 8	Control Structures	☐

1.

```
SQL> SET SERVEROUTPUT ON;
SQL>
SQL> DECLARE
2     v_empno NUMBER := &EMPNO;
3     v_ename VARCHAR2(20) := '&ENAME';
4     v_sal NUMBER := &SAL;
5     v_count NUMBER;
6 BEGIN
7     SELECT COUNT(*)
8     INTO v_count
9     FROM employees
10    WHERE employee_id = v_empno;
11
12    IF v_count = 0 THEN
13        INSERT INTO employees
14        (employee_id, first_name, last_name, email, hire_date, job_id, salary)
